SUMMARY

I'm a recent graduate in Computer Science from the University of Vigo looking for a first job. I've worked with PHP, JavaScript, Java, C++, C#, Python, SQL, Docker.

WORK EXPERIENCE

Possible Inc., Vigo: *Internship*

FEBRUARY 2023 - APRIL 2023

I've used Python, C#, Docker, Git, Gitea, Visual Studio Code, Flask., Pandas, SQL.

Projects: professor selection for subjects for a university, modifying a job entry and exit logging system, integration of this system with a face scanner device using the manufacturer's SDK.

EDUCATION

Universidad de Vigo, Ourense: *Bachelor in Computer Science*

SEPTEMBER 2010 - JUNE 2021

This Bachelor's degree took longer than expected due to health issues. Bachelor's final project: I developed an Android app for managing a personal book collection, using Java, Gradle and Android Studio.

Universidad de Vigo, Ourense: *Masters in Computer Science*

SEPTEMBER 2021 - FEBRUARY 2024

Master's final project: I wrote in C++ and CUDA implementations of the distance transform for GPU for a project in computer vision.

COURSES AND CERTIFICATIONS

Coursera, DeepLearning.ai: [Deep Learning Specialization](#)

SEPTEMBER 2023 - NOVEMBER 2023

Udemy: [Java Spring Framework 6 with Spring Boot 3](#)

AUGUST 2024 - OCTOBER 2024

HARD SKILLS

Web, desktop and Android mobile application development.

Linux systems administration using Ansible.

Network administration using CISCO, Linux technologies.

Backend using Flask, PHP, basic skills in Spring.

Frontend using HTML, JavaScript, Bootstrap.

GPU programming using CUDA in Python and C + +.

Python, Java, C++, PHP, Javascript, C.

SOFT SKILLS

Problem solving.

Adaptability.

Curiosity.

LANGUAGES

Spanish.

[English C2.](#)
